## Zora's Valentine Word Problems

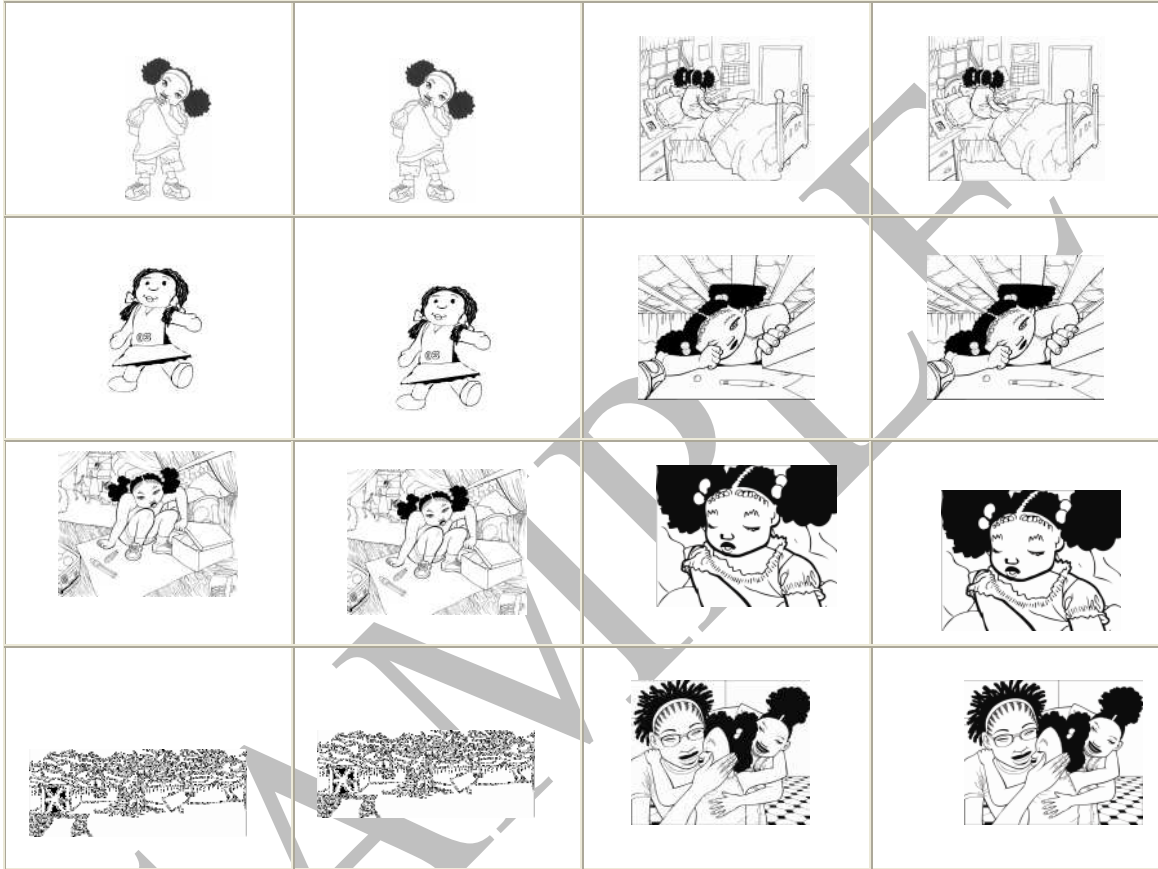

**Directions:** Read the question carefully. Underline the key math words. Solve the problem. Show your work.

1. Zora has ten valentines. She gives four away to her friends. How many does Zora have left?"
2. Zora bought six boxes of valentines for her friends. Each box had twelve cards. How many valentines did Zora have to give to her friends?
3. Zora bought three bags of candy for ten friends. Each bag had thirty bars of candy. How many pieces of candy did each friend get?
4. The month of February has twenty-eight days in it. If it is February 14, how many days are left in the month of February?

## Zora's Valentine Concentration Game

Color the pictures. Cut out each square and paste on colored squares a little larger than the picture squares. Play the game by turning all the pieces over and choosing two. If they match keep them facing up, if they don't turn them back over.
